Fraction Music Game

The correct answer is:

A.

B.

C.

o

Fantastic!

Fraction Music Game

*(For this part you can work with one friend or a group of friends)
You get to play 3 musical notes. One is going to be the correct answer and that will be a whole note. Play the other two notes shorter, like for 1 or 2 counts.*

As the music is performed, ask your friend(s) to keep counting in their head along with each musical note. Remind your friend that the whole note is equal to 4 counts (4 beats).

Before you start to play, please tell your friend which musical piece you will play, for example: "Example A" and start your music with a count off: "Ready, Set, Go!"

Fraction Music Game

(Student's Printout)

Name: _____

Which example is correct?

A.

B.

C.

Fantastic!

Thank You!
